It is the intent of this page to provide a listing of, and where possible, links to, journal articles and other publications reporting research conducted in the Department of Energy's Atmospheric Science Program. Where links are given as digital object identifiers (doi: followed by a string of characters) the article may be retrieved by clicking on the link or by copying the doi number and pasting it into the doi resolver page <http://dx.doi.org/>.

Please provide any additions, corrections, or url's of links by email to Judy Williams, judywms@bnl.gov [Please indicate "ASP Publications" in the subject line.]

Acknowledgments. ASP investigators are requested to include an acknowledgment of support for publications as follows:

Investigators at DOE Laboratories: This work was supported [primarily; in part] by the U.S. Department of Energy's Atmospheric Science Program (Office of Science, BER); [PNNL] is operated for the DOE by [Battelle Memorial Institute] under contract [DE-AC06-76RLO 1830].

Investigators not at DOE Laboratories: This research was supported [primarily; in part] by the U.S. Department of Energy's Atmospheric Science Program (Office of Science, BER, Grant No. DE-FG02-XXER6XXXX).
