Workshop on Atmospheric Dispersion Modeling  
June 6-8, 2000  
Silver Spring, MD

Mission: Protection of life and property thru the use of timely , accurate and concise volcanic ash SIGMET's and Volcanic Ash Advisories.

Criteria: 10 minute time standard for warnings.

Model Requirements:

- Quick set-up time (easy to use).
- Digital (gridded) data output which allows overly/underlay with other meteorological fields or maps.
- Local authorization for model runs.
- 24 hr/365 day support.
- Compatibility with AWIPS.
- Dissemination on WAFS.
